EDUCATION

Trincomalee Campus, Eastern University Sri Lanka

B.Sc. in Computer Science (Undergraduate)

– **Overall GPA (OGPA): 3.74/4.00**

– Relevant Coursework: Data Structures & Algorithms, DBMS, System Analysis & Design, Computer Architecture, Statistics, MIS.

Sri Lanka

Expected May 2028

PERSONAL PROJECTS

Personal Blog Web Application | *Django, Python, SQL*

Active

– Built a full-stack blog platform using the **Django** framework to manage content and user authentication.

– Implemented relational database structures to handle posts and categorization effectively.

– **Link:** github.com/KabileswaranKabil/personal-blog-django

Snake Game GUI | *C++, SFML*

Completed

– Developed a classic Snake game featuring a Graphical User Interface using the **SFML** library.

– Applied object-oriented principles to manage game states and collision detection.

– **Link:** github.com/KabileswaranKabil/snake-game-using-sfml

Java GUI Calculator | *Java, AWT*

Academic Project

– Engineered a desktop calculator application focusing on event-driven programming and layout management.

– **Link:** github.com/KabileswaranKabil/Java-AWT-Calculator

Frontend Development Portfolio | *JavaScript, Web Tech*

Ongoing

– Developing a series of interactive web projects to strengthen proficiency in DOM manipulation.

– **Link:** github.com/KabileswaranKabil/JavaScript-Projects

TECHNICAL SKILLS

Languages: Java (OOP, AWT), Python (Django), C++ (SFML), JavaScript, SQL, HTML/CSS

Tools & IDEs: Git, GitHub, PyCharm, Eclipse, NetBeans, Jupyter Notebook, Vercel, VS Code

Web Development: Django Framework, Firebase (Basics), Responsive Web Design

Competencies: Algorithmic Problem Solving, GUI Development, Technical Documentation

POSITIONS OF RESPONSIBILITY

TRICOM (Computer Science Society of TCEUSL)

Sri Lanka

Member

2024 – Present

– Collaborate with peers to stay updated on emerging technologies and academic excellence.

– **Continuous Learning:** Documenting progress in DSA through a Personal Learning Blog.
